Professional Summary

Analytical and detail-oriented Computer Science undergraduate with hands-on proficiency in Python, SQL, Machine Learning, and Exploratory Data Analysis (EDA). Experienced in building end-to-end data pipelines, predictive models with Scikit-learn, and interactive dashboards. Strong foundation in NLP, Large Language Models (LLMs), and cloud AI workflows on AWS. Seeking an entry-level Data Analyst or Data Scientist role to deliver data-backed business insights.

Technical Skills

Programming & Querying: Python, SQL, JavaScript, HTML5, CSS3

Data Science & Analytics: Exploratory Data Analysis (EDA), Feature Engineering, NumPy, Pandas, Scikit-learn

Visualization & BI: Power BI, Matplotlib, Seaborn, Interactive Dashboards, KPI Tracking, Data Visualization

Tools & Cloud: Git, GitHub, Jupyter Notebook, VS Code

Projects

Retail Sales Forecasting & Demand Prediction System
Python, Scikit-learn, Pandas, NumPy, Matplotlib

- Built an end-to-end supervised machine learning pipeline to forecast retail sales volume and identify key seasonal drivers from historical sales records.
- Developed data cleaning workflows to handle missing values, anomalies, and multicollinear features across 10,000+ transaction records using Pandas and NumPy.
- Trained, tuned, and evaluated regression models (Linear Regression, Random Forest Regressor) with Scikit-learn, improving RMSE and R^2 scores.
- Created Matplotlib visualizations showing demand trends, seasonal peaks, and SKU performance to support stakeholder decision-making.

Language translate web page
Python, Flask, Jinja2, HTML5, CSS3

- Welcome to our Language Translator web application. This project is designed to bridge communication gaps by providing fast, accurate, and seamless text translation across multiple languages. Built using modern web technologies (HTML, CSS, JavaScript, and Translation APIs), it aims to make global communication effortless for students, travelers, and professionals alike.

Internships & Professional Training

AWS AI-Powered Cloud Engineer Intern (Virtual) Jan 2025 – Mar 2025
Amazon Web Services

- Gained practical experience deploying, configuring, and monitoring cloud-hosted machine learning workflows and AI services on AWS.
- Worked with cloud storage integration, scalable compute instances, and cost-efficient cloud architectures for data pipelines.

Web Development Intern (Virtual) Jan 2025 – Feb 2025
Acmegrade

- Developed responsive web components using front-end and back-end standards, improving cross-browser compatibility and page load speed.
- Collaborated on modular web interfaces, gaining experience in version control, debugging, and hosting.

Education

Bachelor of Technology (B.Tech), Computer Science 2023 – 2027
Invertis University CGPA: 7.7

Higher Secondary School Certificate (Class XII), UP Board 2023
Secondary School Examination (Class X), CBSE Board 2020

Certifications & Extracurriculars

- **National Hackathon Participant** – 30-hour hackathon at Shivalik College of Engineering, Dehradun, Uttarakhand (October 2025)
